Pharmacy Management System

Pharma Care

Everything you need to know to use the system with ease

This system helps you manage your entire pharmacy from one place from selling medicines and printing invoices, to tracking inventory, customers, and suppliers.

What Can You Do With This System?

Point of Sale (POS)

- Search for a medicine and add it to the invoice in one click
- Easily adjust quantities in the cart
- Real time stock alerts cashier is notified immediately if stock runs out
- Complete checkout and print the invoice instantly
- Every invoice has a QR Code for verification

Medicine & Product Management

- Add new medicines, edit existing ones, or delete them
- Organize medicines by category (Antibiotics, Vitamins, Pain Relief...)
- Get automatic low stock alerts when inventory is running low
- Set and update the price for each medicine

Customer Management

- Store customer details (name, phone number, address)
- View the full purchase history of any customer
- Total spending per customer is calculated automatically
- Quick search to find any customer instantly

Orders & Invoices

- Every order is automatically saved in the system
- View full order history at any time
- Print any invoice with one click
- Supports multiple payment methods: Cash / Card / Insurance

More Useful Features

Reports & Analytics

- Total revenue for any time period
- Sales broken down by medicine category
- Most used payment methods
- Top-selling medicines and best customers
- Charts update in real-time with every transaction

Supplier Management

- Store details for each supplier
- Track deliveries and incoming orders
- Rate and review supplier performance

User Management

- Three roles: Admin / Pharmacist / Cashier
- Each role has its own set of permissions
- Admin can add, edit, and remove users

Settings

- Pharmacy name, license number, and contact info
- Tax rate configuration
- This information appears on every printed invoice

How to Get Started?

Step	What to Do
1	Open the app and log in with your credentials
2	Go to Products and add the medicines you carry
3	Go to Customers and register your existing customers
4	Use the POS screen to create a new sale invoice
5	Check the Reports section for daily sales and analytics

Who Does What? (User Roles)

Role	Permissions
Admin	Full access users, settings, reports, everything
Pharmacist	Manage medicines, inventory, and suppliers
Cashier	POS screen, invoices, and customer management
